

## Call for Special Sessions

IPIN has an excellent track record over the years for organizing Special Sessions in new or emerging areas. This year as well we are seeking innovative, high-quality and potentially interdisciplinary proposals for Special Sessions that complement the regular program of the conference.

Special Sessions should be focused and provide both, an overview of the state-of-the-art, as well as highlight the most promising research directions, trends and challenges in the scope of the conference.

The 2021 edition will be held in Lloret de Mar, in Costa Brava, 75 km North from Barcelona (Spain).

## Preparation of proposals

Submitted proposals should include the following information:

- Special Session title
- Short description of the proposed topic (one paragraph)
- Novelty and motivation (one to two paragraphs), including why this topic is of interest to the IPIN community and why it is different from a regular session on the same topic
- A short biography of the organizers

Proposals will be evaluated based on topic novelty and associated impact.

Special session papers submissions at IPIN are reviewed via the same exact process as submissions to the regular program, and papers are expected to meet the same quality standards.

## Proposal submission

Please, send your proposals (in pdf and not exceed 4 pages) of Special sessions to IPIN 2021 to:

[ipin2021@uoc.edu](mailto:ipin2021@uoc.edu)

## Important Dates

- Special Session Proposal:
  - 21 March 2021
- Notification of Special Session Acceptance:
  - 31 March 2021

[ipin-conference.org/2021/](http://ipin-conference.org/2021/)

The event will take place in a hybrid format face-to-face and online. In case the sanitary situation does not allow any face-to-face event, the conference will take place completely online.
