NUREMBERG

CONTENTS

Now that I saw the towers and blue smoke of
Nuremberg from a far,
I almost thought I was seeing not a single city, but a
whole world

– Johannes Butzbach

Fraunhofer IIS

The institute is a world-leading application-oriented research institution for microelectronic and information technology system solutions and services. Today, it is the largest institute of the Fraunhofer-Gesellschaft.

We offer standardized localization and networking technologies that convince through high accuracy, real-time capability and intelligent processing in a wide range of digital applications. With our leading activities in 5G standardization for localization, we offer ideal conditions for the implementation of applications in the (Industrial) Internet of Things for connected mobility and smart city.

Through the latest developments and research activities in the field of data analysis with methods of artificial intelligence and machine learning, we offer trend-setting development solutions to provide secured, reliable and relevant information from data volumes for optimizations of workflows or decision and action recommendations in complex environments.

FOR SPECIAL REQUESTS

Any special request for sponsorship will be met so that the company can create a strategic opportunity within the congress. These requests will be consulted with the Scientific Committee, subject to final approval.

Sponsorship and Exhibition Requirements

SPONSORSHIP RESERVATION

In order to make a sponsorship reservation, a sponsorship contract needs to be completed and signed. The assignments of the different space option will be made depending on the type of sponsorship. All the exhibitors will receive the assembly and dismantling schedule two months before the congress.

TERMS AND CONDITIONS

The signing of the sponsorship contract for any of the Platinum, Gold and Silver options implies acceptance of these terms and conditions. This contract is valid and obliges both parties.

TERMS OF PAYMENT AND PAYMENT METHOD

Payment is generally made via the "invoice" method. For this purpose, we ask you to send us your sponsorship applications via the e-mail: ipin2023@iis.fraunhofer.de. Afterwards, these will be processed and an invoice will be created for you, which we will send to you together with all important payment data.

The bank expenses will be covered by the payer.
